Report from the Board of Directors

Summary of Quarter 2 2014

The comparative figures in parentheses are for the first quarter of 2014.

- Net interest income amounted to NOK 126 million (NOK 107 million)
- Other operating income amounted to NOK 75 million (NOK 57 million)
- Profit after tax of NOK 93 million (NOK 74 million)
- Profit after tax from core business totalling NOK 94 million (NOK 72 million)
- Other operating expense amounted to NOK 56 million (NOK 58 million)
- Costs constituted 28 per cent of total income (35 per cent)
- Return on equity after tax of 10.3 per cent (8.2 per cent)
- Impairment losses on loans constituted an expense of NOK 21 million (expense of NOK 5 million)

Summary as at 30 June 2014

The comparative figures in parentheses concern the corresponding period last year.

- Net interest income amounted to NOK 233 million (NOK 190 million)
- Other operating income amounted to NOK 132 million (NOK 144 million)
- Profit after tax amounted to NOK 167 million (NOK 111 million)
- Profit after tax from core business totalling NOK 166 million (NOK 113 million)
- Other operating expense amounted to NOK 114 million (NOK 107 million)
- Costs constituted 31 per cent of total income (32 per cent)
- Return on equity after tax of 9.3 per cent (6.7 per cent)
- Return on equity after tax from core business at 9.5 per cent (6.7 per cent)
- Growth in lending in the managed portfolio of NOK 509 million during the past 12 months (NOK 2,621 million)
- The margin on loans measured against the 3-month NIBOR rose by 6 basis points during the past 12 months to 2.38 per cent (2.32 per cent)
- The deposit margin measured against the 3-month NIBOR rose by 25 basis points during the past 12 months to -0.92 per cent (-1.17 per cent)
- Impairment losses on loans and advances of NOK 26 million (NOK 72 million)
- First report on capital adequacy according to the AIRB method for corporate engagements
- Capital adequacy ratio of 18.3 per cent (14.3 per cent)
- Tier 1 capital adequacy ratio of 15.8 per cent (12.0 per cent)
- Core tier 1 capital ratio of 14.0 per cent (10.2 per cent)

Results for Quarter 2 2014

The comparative figures in parentheses are for the first quarter of 2014.

During the second quarter of 2014, profit after tax was NOK 93 million (NOK 74 million). This gave an annualised return on equity of 10.3 per cent (8.2 per cent). The key factors behind the increase are higher net interest income, the dividend from SpareBank 1 Boligkreditt and greater changes in the value of financial instruments, while losses had a negative impact.

Total income was NOK 201 million during the second quarter of 2014 (NOK 164 million).

NOK MILLION	Q2 2014	Q1 2014	CHANGE
Total income	201	164	37
Late payment interest and net interest fees			24
Dividend from OMF companies			12
Commission income from OMF companies			2
Changes in value			3
Margin and volume of lending, deposits and other securities			-4

During the second quarter, net interest income amounted to NOK 126 million (NOK 107 million). Previous unrecognised late payment interest and a higher deposit margin had a positive impact, while a somewhat lower lending volume and margin had a negative impact.

During the second quarter, other operating income excluding changes in value amounted to NOK 63 million (NOK 49 million). The change was primarily due to a share dividend from SpareBank 1 Boligkreditt. Commission income from SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt amounted to NOK 48 million (NOK 46 million). The commission is calculated as the interest on loans less costs incurred by SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt. The costs includes a premium for the capital that the shareholders have invested in SpareBank 1 Næringskreditt for loans that BN Bank has transferred to this company.

Operating expense for the second quarter of 2014 was NOK 56 million (NOK 58 million). Operating expense has remained low as a result of a focus on efficiency and costs. BN Bank aims to be one of Norway's most cost-effective banks. Other operating expense amounted to 28 per cent of total income during the second quarter of 2014 (35 per cent). Adjusted for the equity surcharge in SpareBank 1 Næringskreditt, costs amount to 23 per cent of income.

During the second quarter of 2014, NOK 21 million was expensed in respect of impairment losses on loans and advances (NOK 5 million). Individual and collective impairment losses on loans were distributed as follows:

NOK MILLION	INDIVIDUAL	GROUPE
Corporate Market	22	-6
Retail Market	2	0
Guarantee Portfolio	24	-21

As at 30 June 2014

The comparative figures in parentheses apply as at 30 June 2013.

During the first six months of 2014, the BN Bank Group posted a profit after tax of NOK 167 million (NOK 111 million). This gives an annualised return on equity after tax of 9.3 per cent (6.7 per cent). Greater margins and reduced losses had a positive impact, while somewhat higher costs, lower commission income and changes in the value of financial instruments had a negative impact.

The Bank's core business (the result of the corporate and retail banking operations) saw an increase in post-tax profit of NOK 53 million, up from NOK 113 million in the first half of 2013 to NOK 166 million in the first half of 2014.

Income

Total income was NOK 365 million (NOK 334 million). BN Bank has improved its margins in both the corporate and retail markets during the past year. The Bank's total margin on loans measured against the 3-month NIBOR during the first half of 2014 was 2.38 per cent (2.32 per cent).

The Bank's deposit margin measured against the 3-month NIBOR during the first half of 2014 was -0.92 per cent (-1.17 per cent).

Other operating expense for the first half of 2014 was NOK 132 million (NOK 144 million). Reduced commission income from SpareBank 1 Næringskreditt and lower changes in value had a negative impact, while higher commission income and a larger dividend from SpareBank 1 Boligkreditt had a positive effect.

Costs

Operating expense amounted to NOK 114 million (NOK 107 million). Costs during the first half of 2014 constituted 31 per cent of total income (32 per cent). Adjusted for the equity surcharge and return in SpareBank 1 Næringskreditt, the cost ratio is 26 per cent (31 per cent).

Losses on loans and non-performing loans

Net impairment losses on loans and guarantees totalled NOK 26 million (NOK 72 million).

Defaults in excess of 90 days amounted to 1.28 per cent of gross lending within the Group as at 30 June 2014 (2.48 per cent). With a deduction for individual write-downs, non-performing and doubtful loans amounted to NOK 512 million (NOK 1,012 million) at the end of the first half of 2014, equivalent to 1.79 per cent (3.14 per cent) of gross lending within the Group and the Guarantee Portfolio. See Note 6 for more information.

Impairment losses during the first half of 2014 were distributed as follows:

NOK MILLION	INDIVIDUAL	GROUP
Corporate Market	21	-4
Retail Market	5	2
Guarantee Portfolio	25	-23

Loan loss provisions within the core business amounted to NOK 229 million at the end of the second quarter of 2014. Of this figure, individual write-downs account for NOK 170 million and collective write-downs NOK 59 million. Total loan loss provisions as at the end of the second quarter of 2014 were distributed as follows:

	LOAN LOSS PROVISIONS (NOK MILLION)	% OF GROSS LENDING GROUP
Corporate Market	213	1.03
Retail Market	16	0.20

BN Bank has previously sold its portfolio in Ålesund to SpareBank 1 SMN. BN Bank now provides guarantees for 60% of the credit risk for this portfolio (referred to as the Guarantee Portfolio) of NOK 417 million. Including the loss that has already been determined, the Bank's maximum exposure is thus down to NOK 196 million, which at the end of the second quarter of 2014 represented 0.7% of the Group's total lending. The total provision for losses in the Guarantee Portfolio was NOK 81 million as at the end of June 2014.

Balance sheet developments and capital

Gross managed lending[1] has risen by NOK 0.5 billion, or 1 per cent, in the past 12 months. Gross managed loans totalled NOK 50.3 billion at the end of the second quarter 2014.

NOK BILLION	30.06.14	30.06.13
Gross lending	50.3	49.8
Change last 12 months	0.5	2.7

[1] Gross managed lending is the sum total of corporate and retail lending in BN Bank, SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt.

Gross managed lending had the following segmental exposure:

NOK BILLION	30.06.14	30.06.13
Retail Market	16.9	15.2
Corporate Market	33.4	34.6

Corporate Market has reduced lending by NOK 1.2 billion, or 3 per cent, during the past 12 months. The lending volume in the retail market rose by NOK 1.7 billion, or 11 per cent, during the same period.

Deposits fell by NOK 2.5 billion, or 15 per cent. Total deposits amounted to NOK 13.9 billion at the end of the second quarter. The deposit-to-loan ratio was 49 per cent at the end of the second quarter, a reduction of 2.3 percentage points during the past 12 months.

To date in 2014, the Bank has issued certificates and bonds totalling NOK 2.8 billion in the Norwegian bond market. BN Bank has a conservative liquidity strategy. BN Bank has established a goal of being able to manage without access to new external financing sources for a period of 12 months. At the end of the second quarter of 2014, the Bank met this goal. BN Bank's liquidity portfolio amounted to NOK 6.6 billion at the end of the second quarter 2014.

At the end of the first quarter of 2014, loans worth NOK 12.8 billion had been transferred to SpareBank 1 Næringskreditt, while loans amounting to NOK 8.8 billion had been transferred to SpareBank 1 Boligkreditt. In total, the Bank has transferred 38 per cent of loans for commercial property and 52 per cent of residential mortgage loans to these two companies. During the past 12 months, the Bank has transferred net amounts of NOK 1.9 billion and NOK 2.2 billion to SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt respectively.

The Bank's total assets amounted to NOK 36.4 billion as at 30 June 2014 (NOK 40.8 billion). Including loans transferred to SpareBank 1 Boligkreditt and SpareBank 1 Næringskreditt, total assets amounted to NOK 58.0 billion (NOK 54.5 billion).

In a letter from the Financial Supervisory Authority of Norway dated 15 April 2014, BN Bank was granted permission to apply the advanced IRB approach for corporate loans. This permission applies to corporate loans on the balance sheets of BN Bank ASA and Bolig- og Næringskreditt AS. The IRB approach has been used for the first time as at the end of the second quarter of 2014. The risk weighted assets has decreased by around 18 per cent during the past quarter, primarily as a result of the permission referred to above.

BN Bank's capital adequacy ratio, tier 1 capital ratio and core tier 1 capital ratio were as follows:

FIGURES AS %	30.06.14	30.06.13
Capital adequacy ratio	18,3	14,3
Tier 1 capital ratio	15,8	12,0
Core tier 1 capital ratio	14,0	10,2

The Board of Directors has adopted a provisional capital plan for BN Bank aimed at attaining a core tier 1 capital ratio of 13 per cent by the end of the second quarter of 2016. See Note 13 for further details concerning capital adequacy ratio and solvency.

Accounting policies

BN Bank presents its consolidated interim financial statements in compliance with International Financial Reporting Standards (IFRS). See Note 1 for more information.

The interim financial statements give a true and fair view of the BN Bank Group's assets and liabilities, financial position and performance. The interim financial statements are based on the assumption that the entity is a going concern.

Subsidiaries

The BN Bank Group comprises BN Bank ASA and the credit institution Bolig- og Næringskreditt AS (BNkreditt). The Group also includes the real estate company Collection Eiendom AS.

BNkreditt presents separate financial statements in compliance with International Financial Reporting Standards (IFRS). Collection Eiendom presents its financial statements in compliance with NGAAP. See Note 1 for more information.

Bolig- og Næringskreditt AS (BNkreditt)

BNkreditt provides low-risk mortgage loans on commercial property. As at 30 June 2014, the company had a gross lending portfolio of NOK 17.1 billion, compared with NOK 18.0 billion as at 30 June 2013. As at 30 June 2014, a loan portfolio of NOK 12.8 billion had been transferred to SpareBank 1 Næringskreditt.

Profit after tax amounted to NOK 61 million as at 30 June 2014, compared with a post-tax profit of NOK 38 million during the same period in 2013. Reduced losses made a positive contribution, while lower commission income from SpareBank 1 Næringskreditt had a negative impact.

Impairment losses on loans and advances totalled NOK 16 million as at the end of the first half of 2014, compared with NOK 76 million during the first half of 2013. Collective write-downs fell by NOK 3 million during the first half of 2014 and amount to NOK 29 million, BNkreditt had NOK 3.5 billion in bond debt outstanding at the end of the second quarter of 2014, compared with NOK 3.4 billion at the end of the second quarter of 2013.

BN Bank has provided guarantees that BNkreditt will have a minimum capital adequacy ratio and subordinated financing from the Bank of 20 per cent. The capital adequacy ratio was 21.3 per percent, while the tier 1 capital ratio was 18.3 per cent at the year-end 2. quarter of 2014. The amount BN Bank is ceding precedence for in relation to guarantees was NOK 0 million as at the second quarter of 2014.

Collection Eiendom AS

Collection Eiendom was established in 2010 for the purpose of owning and managing repossessed properties.

Collection Eiendom posted a zero result after tax for the second quarter of 2014 (NOK 0 million).

Outlook

After a certain period of time with high lending margins and correspondingly low deposit margins, the first half of 2014 indicates that the margins are changing. The banks have reduced residential mortgage loan interest rates and deposit interest rates. There is also pressure on margins within the commercial property sector. The price of new borrowing fell during the first half of 2014. Lower borrowing prices will impact on the Bank's financial statements as the Bank refinances its borrowing, but will not significantly affect the Bank's financial figures in the short term. The underlying trend in costs is in line with the Board of Directors' plans.

Prices rose in the residential market during the first half of 2014. The retail market is still characterised by low unemployment and low interest rates. This means that households are well able to service their debts, and non-performing loans in the residential mortgage portfolio are at a low level. Average household debt is nevertheless still high, making some households vulnerable to interest rate rises and reductions in earnings. Given the situation in the market, it will be important to continue to maintain the Bank's conservative credit policy to ensure that the credit risk associated with the retail portfolio remains low. Within commercial property, there is no sign of the market moving significantly in any one direction in the foreseeable future, although a weaker trend in the Norwegian economy may dampen demand for commercial properties.

Bonds issued by SpareBank1 Næringskreditt and SpareBank 1 Boligkreditt are an important aspect of the funding structure for the Bank's aggregate loan portfolio. At the same time, there are limits as to how large a share of the portfolio can be funded through covered bonds, and the Bank will continue to remain dependent on unsecured market funding. In recent quarters, BN Bank has increased the term of the Bank's market financing and, combined with a greater proportion of the Bank's total lending being financing through covered bonds, the Board believes that the Bank is well-equipped to face any adverse events in the financial markets.

During the second quarter of 2014, BN Bank was given permission to use the advanced IRB method for corporate loans on the balance sheets of BN Bank ASA and Bolig- og Næringskreditt AS. This permission results in a marked reduction in the risk weighted assets, and the core tier 1 capital adequacy ratio within the Group is 14.0 per cent as at the end of the second quarter. The Bank's target for core tier 1 capital adequacy ratio of 13 per cent as at the end of the second quarter of 2016 is therefore met.

Notes

NOTE 1. ACCOUNTING POLICIES

The interim financial statements have been prepared in accordance with IFRS, including IAS 34 on Interim Financial Reporting. A description of the accounting policies applied by the Group when preparing the interim financial statements is given in the annual report for 2013 with the following exceptions: .

IFRS 10 "Consolidated Financial Statements" is based on the current principles of using the concept of control as the decisive criterion for determining whether a company should be included in the parent company's consolidated financial statements. The standard provides comprehensive guidance for assessing whether control is present in those cases where this is difficult to determine. As at the end of 2013, the Group has no assets in companies that must revise their accounting policies as a result of the standard. To date in 2014, there have also been no investments in companies which are subject to actual control and which should therefore be consolidated.

IFRS 12 "Disclosures of Interest in Other Entities" contains notes concerning investments in other entities. The standard sets out requirements for notes concerning investments in subsidiaries, associated companies, special purpose entities (SPEs) and other unconsolidated companies. The aim is to provide information on characteristics and risks linked to the Group's investments in such companies and the effects that this has on the Group's balance sheet, income statement and cash flows. The Group has concluded that the standard will not have a material impact on the information disclosed in the financial statements.

NOTE 2. INFORMATION ON OPERATING SEGMENTS

The segment report is regularly reviewed with the management. The management have chosen to subdivide the reporting segments according to the underlying business areas.

NOK MILLION	CORPORATE MARKET	RETAIL MARKET	GUARANTEE PORTFOLIO SMN	TOTAL 30.06.14

The Group operates in a geographically limited area and reporting based on geographic segments would provide little additional information.

NOTE 3. CHANGE IN VALUE OF FINANCIAL INSTRUMENTS CARRIED AT FAIR VALUE, GAINS AND LOSSES

NOK MILLION	2. KV. 2014	2. KV. 2013	30.06.2014	30.06.2013	THE YEAR 2013
Change in value of interest rate derivatives obliged to be carried at fair value through profit or loss [3]	-13	5	-16	11	16
Change in value of currency derivatives obliged to be carried at fair value through profit or loss [1]	-54	-52	-34	-51	-4
Total change in value of financial instruments obliged to be carried at fair value	**-67**	**-47**	**-50**	**-40**	**12**
Change in value of deposits selected for fair value carrying through profit or loss [3]	0	13	0	14	21
Change in value of borrowings selected for fair value carrying through profit or loss [3]	3	4	5	1	9
Change in value of loans selected for fair value carrying through profit or loss [3]	2	-5	2	2	-3
Change in value of short-term financial investments selected for fair value carrying [2]	20	0	37	9	11
Total change in value of financial instruments selected for fair value carrying	**25**	**12**	**44**	**26**	**38**
Change in value of interest rate derivatives, hedging [4]	44	-13	51	-17	-26
Change in value of borrowings, hedged [4]	-44	13	-51	17	26
Total change in value of financial instruments for hedging	**0**	**0**	**0**	**0**	**0**
Total change in value of financial instruments carried at fair value	**-42**	**-35**	**-6**	**-14**	**50**
Realised exchange gains/losses(-) bonds and certificates carried at amortised cost [5]	0	-2	-10	-12	-16
Realised exchange gains/losses(-) borrowings and loans carried at amortised cost [5]	0	53	0	-1	-1
Realised gain/loss on shares [6]	-1	0	-1	0	0
Exchange gains/losses on borrowings and loans carried at amortised cost [1]	55	0	37	55	8
Total change in value of financial instruments carried at fair value, gains and losses	**12**	**16**	**20**	**28**	**41**

[1] Exchange gains/losses on borrowings and loans carried at amortised cost are chiefly attributable to exchange gain/loss effects which arise when borrowing and lending in foreign currencies are translated at the current exchange rate. Forward exchange contracts and combined interest rate and currency derivatives are carried at fair value with changes in value carried through profit or loss. The net foreign exchange effect for the Group was recognised income of NOK 3 million as of the end of the second quarter of 2014, compared with NOK 4 million during the same period in 2013. The annual effect for 2013 was a recognised income of NOK 4 million. Exposure to exchange rate fluctuations is low.

[2] Change in the value of financial investments selected for fair value carrying gave rise to a recognised income of NOK 37 million as of the end of the second quarter of 2014, compared with recognised income of NOK 9 million for the same period in 2013. The annual effect was a recognised income of NOK 11 million in 2013.

[3] The net effect of interest rate derivatives obliged to be carried at fair value and changes in the value of financial instruments selected for fair value carrying was recognised income of NOK 2 million at the end of the second quarter of 2014, compared with NOK 28 million during the same period in 2013. The annual effect was recognised income of NOK 43 million in 2013.

[4] BN Bank uses fair value hedges for new fixed-rate borrowing and related hedge instruments. The borrowings are hedged 1:1 through external contracts where the principal, interest stream, term and hedging transaction match. It is the interest rate risk that is hedged and the hedging transactions entered into are documented. With value hedging, the hedge instrument is accounted for at fair value, and the hedge object is accounted for at fair value for the hedged risk. Changes in these values from the opening balance sheet are carried in profit or loss. The credit risk is not hedged and therefore does not affect the valuations. The value of the hedging instruments as at 30 June 2014 was positive by NOK 209 million, compared with NOK 168 million during the same period last year. As at 31 December 2013, the values were positive in the amount of NOK 174 million.

[5] Realised exchange gains/losses on bonds, certificates and borrowing carried at amortised cost gave rise to recognised expense of NOK 11 million as of the end of the second quarter of 2014, compared with a recognised expense of NOK 13 million for the same period in 2013. The annual effect for 2013 was a recognised expense of NOK 17 million.

[6] During the second quarter of 2014, shares owned by the Bank were written down by a total of NOK 0.5 million.

NOTE 4. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value of financial instruments

Interest swap agreements, currency swap agreements and forward exchange contracts

The measurement of interest swap agreements at fair value is performed using a valuation technique where future cash flows are discounted to present values. The calculation of expected cash flows and the discounting of these cash flows is performed using observed market interest rates for the various currencies (interest-rate swap curve) and observed exchange rates (from which forward exchange rates are derived).

Interest swap agreements with credit spread

The measurement of interest swap agreements with credit spread at fair value is performed using a valuation technique where future cash flows are discounted to present values. The calculation of expected cash flows and the discounting of these cash flows is performed using observed market interest rates for the various currencies (interest-rate swap curve) with premium for the original credit spread on the interest swap agreement.

Certificates and bonds issued by others

Certificates and bonds are measured at quoted prices where such are available and the securities are liquid. Other securities were valued using price estimates obtained from brokers. The values in the comparative figures for 2013 are partly based on a model which involves the discounting of expected future cash flows. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin. The credit margin is again based on estimates from brokers.

Loans and advances

For loans measured at fair value, the valuation is performed using a model where expected future cash flows are discounted to present values. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin which reflects the price of our own borrowing, and an additional premium equal to the original margin premium on the loan.

Borrowings selected for fair value carrying

Where borrowing/funding is measured at fair value, quoted borrowings will be measured at market prices where such are available and the securities are liquid. For other securities, the valuation was performed using price estimates obtained from brokers or using a model which involves the discounting of expected future cash flows. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin. The credit margin is based on estimates from brokers.

Hedged borrowing/funding

Borrowings included in value hedges are measured using a model which involves the discounting of expected future cash flows. The discount rate is determined using the NIBOR/Swap curve plus the original credit margin.

Deposits

For deposits measured at fair value, the valuation is performed using a model where expected future cash flows are discounted to present values. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin.

Shares

The shares primarily consist of the Bank's stake in SpareBank 1 Boligkreditt AS. The valuation of these shares is approximately equal to the capital that has been invested in these companies.

Division into measurement levels

Financial instruments measured at fair value at the end of the reporting period are divided into the following levels of fair value measurement:

- Level 1: Quoted price in an active market for an identical asset or liability
- Level 2: Measurement is performed using a valuation technique and discounting of expected future cash flows. The risk-free interest rate is read from the market through the interest rate on loans between especially creditworthy banks (interest-rate swap curve). The premium for credit risk is determined on the basis of other market players' ongoing assessments of the Bank's creditworthiness.
- Level 3: Measurement based on factors not taken from observable markets nor which have observable assumptions as input to the valuation.

The Group's assets and liabilities measured at fair value as at 30 June 2014

NOK MILLION	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL

Sensitivity analysis, Level 3
For loans carried at fair value, only changes in margin are a non-observable input to the fair value calculation. Changes in margin do not significantly affect the calculation of fair value and have not been quantified for this reason.

The Group's valuation methodology
Within the finance department, the Group has a team which is responsible for valuing assets and liabilities for accounting purposes. The team reports to the Chief Finance Officer. In addition, the actual reports from the period's valuations are submitted to the Audit Committee in connection with the submission of the financial statements. The principles used for the valuation are also regularly reported to the Audit Committee.

Assumptions used for valuation within Level 3 are linked to changes in the margin on loans.

NOTE 5. OTHER OPERATING INCOME

NOK MILLION	Q2 2014	Q2 2013	30.06.14	30.06.13	31.12.13
Guarantee commission	1	1	3	2	4
Commission income from SpareBank 1 Næringskreditt AS [1, 2]	21	39	38	74	153
Commission income from SpareBank 1 Boligkreditt AS [1]	27	18	55	33	82
Net other commission income/expense	2	0	4	-1	-5
Other operating income	12	7	12	8	8
Total other operating income	**63**	**65**	**112**	**116**	**242**

[1] For loans that have been transferred to SpareBank 1 Næringskreditt AS and SpareBank 1 Boligkreditt AS, BN Bank receives commission which is calculated as the interest on the loans less expenses incurred by SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt.

[2] From 2014 onwards, these costs will also include a premium for the capital that the owners have invested in Sparebank 1 Næringskreditt for the loans transferred by BN Bank. This premium is intended to ensure a return on capital after tax in SpareBank 1 Næringskreditt corresponding to 8 per cent. This involves a reduction in the commission received by BN Bank from SpareBank 1 Næringskreditt compared with last year.

NOTE 6. IMPAIRMENT LOSSES AND WRITE-DOWNS ON LOANS AND GUARANTEES

The various elements included in impairment losses and write-downs on loans are set out in Note 1 to the annual Report. Loans past due by more than three months are defined as loans not serviced under the loan agreement for three months or more. However, as a first mortgage lender, the Group can gain access to revenue, either through the courts or by some voluntary solution. Impairment losses and write-downs described here apply to loans carried at amortised cost and changes in value and gains/losses on the sale of repossessed properties in the current period.

NOK MILLION	Q2 2014	Q2 2013	30.06.14	30.06.13	31.12.13

Total loss provisions related to Guarantee Portfolio	**81**	**118**	**81**	**118**	**133**

[1] BN Bank has previously entered into an agreement with SpareBank 1 SMN for the latter to take over the Bank's Ålesund portfolio. Including the loss that has already been determined, the Bank's maximum exposure is thus down to NOK 196 million, which at the end of the second quarter of 2014 represented 0.7% of the Group's total lending. The total provision for losses in the Guarantee Portfolio was NOK 81 million as at the end of June 2014.

Loans past due more than 3 months

Total loans, managed portfolio	50 255	49 746	50 025

NOTE 8. TRANSFER OF LOANS TO SPAREBANK 1 NÆRINGSKREDITT

SpareBank 1 Næringskreditt AS was established in 2009 and is licensed by the Financial Supervisory Authority of Norway to operate as a credit institution. The company's bonds have an Aa1 rating from Moody's. The company is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Boligkreditt AS in Stavanger. BN Bank owns no shares in SpareBank 1 Næringskreditt at 30 June 2014. The purpose of the company is to secure for the consortium banks a source of stable, long-term financing of commercial real estate at competitive rates. SpareBank 1 Næringskreditt procures loans with mortgages on commercial properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to the company and, as part of the Bank's funding strategy, loans have been transferred from BNkreditt. Loans transferred to Sparebank 1 Næringskreditt AS are secured by mortgages on commercial properties for up to 60 per cent of the appraised value. Transferred loans are legally owned by Sparebank 1 Næringskreditt AS and, apart from the management right and the right to take over fully or partially written-down loans, BNkreditt has no right to the use of these loans. At the end of June 2014, the book value of transferred loans was NOK 12.8 billion. BNkreditt is responsible for managing the transferred loans and BNkreditt receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

BN Bank has pledged guarantees for the transferred loan commitments where they exceed 25 per cent of SpareBank 1 Næringskreditt's capital base. As at 30 June 2014, the aforementioned guarantees amount to NOK 0 million.

The loans transferred to SpareBank 1 Næringskreditt AS are very well secured and there is only a very slight probability of loss. BNkreditt has a remaining involvement in the form of a possible settlement against the commission it receives. Should there arise accounting credit losses or a fall in margin relating to one or more transferred loans, SpareBank 1 Næringskreditt AS can reduce the commission BNkreditt receives with the loss. A reduction in commission for BNkreditt is limited to the total commission for the calendar year and if SpareBank 1 Næringskreditt AS subsequently has its loss covered, the commission will be paid back to BNkreditt. The maximum amount which BNkreditt can be required to pay back has been calculated, but is not material and is thus not recorded on the balance sheet. The fair value of the expected reduction in commission has been calculated and deemed immaterial. A possible settlement against the commission has therefore had no effect on the balance sheet or the result during the period.

The consideration received for loans transferred from BNkreditt to SpareBank 1 Næringskreditt AS is equal to the nominal value of transferred loans and is measured as virtually concurrent with the fair value of the loans as at the end of the second quarter.

Guarantee provided by BN Bank to BNkreditt

In order to attend to the interests of existing bond holders in BNkreditt, in connection with the transfer of loans to Sparebank 1 Næringskreditt BN Bank has guaranteed that BNkreditt will have a capital adequacy ratio of at least 20 per cent at all times. Should the capital adequacy ratio fall below 20 per cent, the Parent Bank will cede precedence with respect to its accounts receivable with BNkreditt and/or provide a guarantee. As at 30 June 2014, BNkreditt's capital adequacy ratio was 21.29 per cent. The amount the Parent Bank is ceding precedence for stood at NOK 0 million as at 30 June 2014.

NOTE 9. TRANSFER OF LOANS TO SPAREBANK 1 BOLIGKREDITT

SpareBank 1 Boligkreditt is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Næringskreditt AS in Stavanger. BN Bank has a stake of 4.78% as at 30 June 2014. The purpose of the company is to secure for the banks within the consortium a source of stable, long-term financing of residential mortgage loans at competitive rates. The company's bonds have ratings of Aaa and AAA from Moody's and Fitch respectively. SpareBank 1 Boligkreditt procures loans with mortgages on residential properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to SpareBank 1 Boligkreditt and, as part of the Bank's funding strategy, loans have been transferred to the company. Loans transferred to SpareBank 1 Boligkreditt AS are secured by mortgages on residential properties for up to 75 per cent of the appraised value. Transferred loans are legally owned by SpareBank 1 Boligkreditt AS and, apart from the management right and the right to take over fully or partially written-down loans, BN Bank has no right to the use of these loans. At the end of June 2014, the book value of transferred loans was NOK 8.8 billion. BN Bank is responsible for managing the transferred loans and receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.
BN Bank has, in conjunction with the other owners of SpareBank 1 Boligkreditt AS, entered into agreements to establish a liquidity facility for SpareBank 1 Boligkreditt AS. This means that the owner banks have undertaken to purchase covered bonds in the case that SpareBank 1 Boligkreditt AS is unable to refinance its business in the market. The purchase is limited to the total value of the maturities in the company at any time in the next twelve months. Previous purchases under this agreement are deducted from future purchase obligations. Each owner is principally liable for his share of the refinancing need, alternatively for the double of what the primary liability may be in accordance with the same agreement. The bonds can be deposited in Norges Bank and thus give rise to no material increase in risk for BN Bank. According to its own internal policy, SpareBank 1 Boligkreditt AS maintains its liquidity for the next 12 months' maturities. This is deducted when the banks' liability is measured. It is therefore only in the event that SpareBank 1 Boligkreditt AS no longer has sufficient liquidity for the next 12 months' maturities that BN Bank will report any commitment here with regard to capital adequacy or major commitments.

BN Bank has also entered into a shareholder agreement with the shareholders of SpareBank 1 Boligkreditt AS. Among other things, this means that BN Bank will contribute to SpareBank 1 Boligkreditt AS having a tier 1 capital ratio of at least 9.0 per cent, and if required inject tier 1 capital if it falls to a lower level. SpareBank 1 Boligkreditt AS has internal guidelines stipulating a tier 1 capital ratio of at least 10.0 per cent. On the basis of a concrete assessment, BN Bank has chosen not to hold capital for this obligation because the risk of BN Bank being compelled to contribute is considered very slight. Reference is also made in that connection to the fact that there are a number of alternative courses of action which may be relevant should such a situation arise.

The loans transferred to SpareBank 1 Boligkreditt AS are very well secured and there is only a very slight probability of loss. BN Bank has a remaining involvement in the form of a possible settlement against the commission it receives. Should there arise accounting credit losses or a fall in margin relating to one or more transferred loans, SpareBank 1 Boligkreditt AS can reduce the commission BN Bank receives with the loss. A reduction in commission for BN Bank is limited to the total commission for the calendar year and if SpareBank 1 Boligkreditt AS subsequently has its loss covered, the commission will be paid back to BN Bank. The maximum amount which BN Bank can be required to pay back has been calculated, but is not material and is thus not recorded on the balance sheet. The fair value of the expected reduction in commission has been calculated and deemed immaterial. A possible settlement against the commission has therefore had no effect on the balance sheet or the result during the period.

The consideration received for loans transferred from BN Bank to SpareBank 1 Boligkreditt AS is equal to the nominal value of transferred loans and is measured as virtually concurrent with the fair value of the loans as at the end of the second quarter of 2014 and 2013.

NOTE 10. BORROWING

The balance sheet includes borrowing at a fixed interest rate included in hedging carried at amortised cost, while other borrowing at a fixed interest rate is selected for carrying at fair value. Borrowing at a variable interest rate is carried at amortised cost.

Debt securities in issue

The Group has issued bonds and certificates with a nominal value of NOK 2,750 million as at 30 June 2014, either as new issues or the expansion of existing open loans.

NOK MILLION	CERTIFICATES	BONDS	TOTAL

Total	**3 430**	**3 647**	**3 299**	**3 366**	**3 530**	**3 694**

In connection with the calculation of fair value of certificates and bonds at amortised cost, we have used estimates of market prices from brokers. Treasury bills are recognised at the most recent bid price. Financial derivatives are carried in their entirety at fair value, and consequently no difference will be presented in the balance sheet between fair value and recognised value. In the comparative figures from 2013, the fair value of bonds and certificates at amortised cost has partly been calculated using a model where the cash flow of the security is discounted by the NIBOR/Swap interest rate plus a credit margin. The credit margin is again based on estimates from brokers.

Subdivision of fair value measurement for financial instruments carried at amortised cost
Financial instruments measured at fair value at the end of the reporting period are subdivided into the following levels of fair value measurement:

- Level 1: Quoted price in an active market for an identical asset or liability
- Level 2: Measurement is performed using a valuation technique and discounting of expected future cash flows. The risk-free interest rate is read from the market through the interest rate on loans between especially creditworthy banks (interest-rate swap curve). The premium for credit risk is determined on the basis of other market players' ongoing assessments of the Bank's creditworthiness.
- Level 3: Measurement based on factors not taken from observable markets nor which have observable assumptions as input to the valuation.

The Group's assets and liabilities measured at amortised cost as at 30 June 2014

NOK MILLION	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL

NOTE 12. RIGHT OF OFF-SET, FINANCIAL DERIVATIVES

With effect from 2013, the BN Bank Group must provide information on the financial instruments for which it has entered into off-set agreements in accordance with IFRS 7.13 A-F. The company has no items which are recognised net in the balance sheet in accordance with IFRS 7.13.C a-c.

The Group enters into standardised and chiefly bilateral ISDA contracts for derivatives transactions with financial institutions, which give the parties the right of off-set in the event of default. The Group has also entered into additional collateral-posting agreements (CSAs) with some of the counterparties.

NOTE 13. CAPITAL ADEQUACY

Process for assessing capital adequacy requirement

During the second quarter of 2014, the BN Bank obtained approval to use internal measurement methods (Internal Rating Based Approach - Advanced) for measuring credit risk for corporate engagement. The use of IRB imposes comprehensive requirements on the Bank's organisation, competence, risk models and risk management systems. Approval of the Retail Market is under consideration, but has been put on hold due to new requirements concerning residential mortgage loans which were presented by the Financial Supervisory Authority of Norway on 1 July 2014.

[1] For more details, see Note 10.

[2] From the second quarter of 2014, BN Bank has obtained approval to use internal measurement methods for credit risk linked to corporate engagements. Historical minimum requirements for subordinated capital are reported according to the standard method.

NOTE 14. CONTINGENT LIABILITIES

Sale of structured products

BN Bank was sued in a group action over structured savings products in 2008. The Supreme Court ruled in February 2010 that group litigation is not appropriate for assessing this type of product.

Three of the Bank's customers then sued the Bank individually in the District Court, but the Court ruled against them on 8 July 2011. Three of the Bank's customers then sued the Bank individually in the District Court, but the Court ruled against them on 8 July 2011. The ruling was appealed to the Borgarting Court of Appeal, but the case was settled in court with the same result for the Bank as after the District Court's decision, whereby the Bank was obliged to pay its own costs.

BN Bank has also provided loans to finance Artemis structured products. BN Bank was sued by six customers, but the lawsuits were settled in court without the Bank having paid any compensation to the applicants.

In March 2013, the Norwegian Supreme Court passed judgment in the so-called "Røeggen case". The Norwegian Financial Services Complaints Board has in that connection requested all the banks involved, including BN Bank, to re-assess the complaints against them that have been brought before the Complaints Board, in the light of the judgment. Following a further review, BN Bank still takes the view that the cases the Bank is involved in are not comparable with the "Røeggen case". Statements from the Financial Appeal Board during the first quarter of 2014 have supported the Bank's view. All complaints concerning the products have been considered by the board and none of the complaints were upheld. This applies to complaints where the Bank has been a lender and where the Bank has been a lender and an issuer. As a result, the Bank has made no provision related to structured products in 2014.

NOTE 15. CONTINGENT OUTCOMES, EVENTS AFTER THE REPORTING PERIOD

Apart from the matters mentioned in Note 14 above, there are no assets or liabilities to which contingent outcomes are attached and where those outcomes could have a significant impact on the Group's financial position and results.

There have been no significant events after the reporting period.

Notes

NOTE 1. ACCOUNTING POLICIES

The interim financial statements have been prepared in accordance with IFRS, including IAS 34 on Interim Financial Reporting. A description of the accounting policies applied by the Group when preparing the interim financial statements is given in the annual report for 2013 with the following exceptions: .

IFRS 10 "Consolidated Financial Statements" is based on the current principlesof using the concept of control as the decisive criterion for determining whether a company should be included in the parent company's consolidated financial statements. The standard provides comprehensive guidance for assessing whether control is present in those cases where this is difficult to determine. As at the end of 2013, the Group has no assets in companies that must revise their accounting policies as a result of the standard. To date in 2014, there have also been no investments in companies which are subject to actual control and which should therefore be consolidated.

IFRS 12 "Disclosures of Interest in Other Entities" contains notes concerning investments in other entities. The standard sets out requirements for notes concerning investments in subsidiaries, associated companies, special purpose entities (SPEs) and other unconsolidated companies. The aim is to provide information on characteristics and risks linked to the Group's investments in such companies and the effects that this has on the Group's balance sheet, income statement and cash flows. The Group has concluded that the standard will not have a material impact on the information disclosed in the financial statements.

NOTE 2. CHANGE IN VALUE OF FINANCIAL INSTRUMENTS CARRIED AT FAIR VALUE, GAINS AND LOSSES

NOK MILLION	Q2 2014	Q2 2013	30.06.14	30.06.13	31.12.13

Realised exchange gains/losses(-) bonds and certificates carried at amortised cost [5]	1	-1	-10	-8	-12
Realised exchange gains/losses(-) borrowings and loans carried at amortised cost [5]	0	0	0	-1	-1
Realised gain/loss on shares [6]	-1	0	-1	0	5
Exchange gains/losses on borrowings and loans carried at amortised cost [1]	46	19	43	-3	-105
Total change in value of financial instruments carried at fair value, gains and losses	**13**	**17**	**23**	**36**	**54**

[1] A1 Exchange gains/losses on borrowings and loans carried at amortised cost are chiefly attributable to exchange gain/loss effects which arise when borrowing and lending in foreign currencies are translated at the current exchange rate. Forward exchange contracts and combined interest rate and currency derivatives are carried at fair value with changes in value carried through profit or loss. The net foreign exchange effect for the Group was recognised income of NOK 2 million as of the end of the second quarter of 2014, compared with NOK 4 million during the same period in 2013. The annual effect for 2013 was a recognised income of NOK 4 million. Exposure to exchange rate fluctuations is low.

2 Change in the value of financial investments selected for fair value carrying gave rise to a recognised income of NOK 37 million for the first six months of 2014, compared with recognised income of NOK 9 million for the same period in 2013. The annual effect was a recognised income of NOK 11 million in 2013.

3 The net effect of interest rate derivatives obliged to be carried at fair value and changes in the value of financial instruments selected for fair value carrying was a recognised expense of NOK 5 million at the end of the second quarter of 2014, compared with NOK 14 million for the same period in 2013. The annual effect for 2013 was a recognised expense of NOK 47 million.

4 BN Bank uses fair value hedges for new fixed-rate borrowing and related hedge instruments. The borrowings are hedged 1:1 through external contracts where the principal, interest stream, term and hedging transaction match. It is the interest rate risk that is hedged and the hedging transactions entered into are documented. With value hedging, the hedge instrument is accounted for at fair value, and the hedge object is accounted for at fair value for the hedged risk. Changes in these values from the opening balance sheet are carried in profit or loss. The credit risk is not hedged and therefore does not affect the valuations. The value of the hedging instruments as at 30 June 2014 was positive by NOK 188 million, compared with NOK 144 million during the same period last year. As at 31 December 2013, the values were positive in the amount of NOK 130 million.

5 Realised exchange gains/losses on bonds, certificates and borrowings carried at amortised cost gave rise to a recognised expense of NOK 10 million for the first six months of 2014, compared with NOK 9 million for the same period in 2013. The annual effect for 2013 was a recognised expense of NOK 13 million.

6 The subsidiary BN Boligkreditt AS was liquidated in the fourth quarter of 2013, with a realised capital gain in 2013 of NOK 5 million. During the second quarter of 2014, shares owned by the Bank were written down by a total of NOK 0.5 million.

NOTE 3. FAIR VALUE OF FINANCIAL INSTRUMENTS

Methods of determining fair value

Interest swap agreements, currency swap agreements and forward exchange contracts

The measurement of interest swap agreements at fair value is performed using a valuation technique where future cash flows are discounted to present values. The calculation of expected cash flows and the discounting of these cash flows is performed using observed market interest rates for the various currencies (interest-rate swap curve) and observed exchange rates (from which forward exchange rates are derived).

Rentebytteavtaler med kredittspread

The measurement of interest swap agreements with credit spread at fair value is performed using a valuation technique where future cash flows are discounted to present values. The calculation of expected cash flows and the discounting of these cash flows is performed using observed market interest rates for the various currencies (interest-rate swap curve) with premium for the original credit spread on the interest swap agreement.

Certificates and bonds issued by others

Certificates and bonds are measured at quoted prices where such are available and the securities are liquid. Other securities were valued using price estimates obtained from brokers. The values in the comparative figures for 2013 are partly based on a model which involves the discounting of expected future cash flows. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin. The credit margin is again based on estimates from brokers.

Loans and advances

For loans measured at fair value, the valuation is performed using a model where expected future cash flows are discounted to present values. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin which reflects the price of our own borrowing, and an additional premium equal to the original margin premium on the loan.

Borrowings selected for fair value carrying

Where borrowing/funding is measured at fair value, quoted borrowings will be measured at market prices where such are available and the securities are liquid. For other securities, the valuation was performed using price estimates obtained from brokers or using a model which involves the discounting of expected future cash flows. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin. The credit margin is based on estimates from brokers.

Hedged borrowing/funding

Borrowings included in value hedges are measured using a model which involves the discounting of expected future cash flows. The discount rate is determined using the NIBOR/Swap curve plus the original credit margin.

Deposits

For deposits measured at fair value, the valuation is performed using a model where expected future cash flows are discounted to present values. The discount rate is determined using the NIBOR/Swap curve plus an appropriate credit margin.

Shares

The shares primarily consist of the Bank's stake in SpareBank 1 Boligkreditt AS. The valuation of these shares is approximately equal to the capital that has been invested in these companies.

Division into measurement levels

Financial instruments measured at fair value at the end of the reporting period are divided into the following levels of fair value measurement:

- Level 1: Quoted price in an active market for an identical asset or liability
- Level 2: Measurement is performed using a valuation technique and discounting of expected future cash flows. The risk-free interest rate is read from the market through the interest rate on loans between especially creditworthy banks (interest-rate swap curve). The premium for credit risk is determined on the basis of other market players' ongoing assessments of the Bank's creditworthiness.
- Level 3: Measurement based on factors not taken from observable markets nor which have observable assumptions as input to the valuation.

The Parent Bank's assets and liabilities measured at fair value as at 30 June 2014

Sensitivity analysis, Level 3
In the case of loans carried at fair value, only changes in margin constitute a non-observable input to the fair value calculation. Changes in margin do not significantly affect the calculation of fair value and have not been quantified for this reason.

The Group's valuation methodology
Within the finance department, the Group has a team which is responsible for valuing assets and liabilities for accounting purposes. The team reports to the Chief Finance Officer. In addition, the actual reports from the period's valuations are submitted to the Audit Committee in connection with the submission of the financial statements. The principles used for the valuation are also regularly reported to the Audit Committee.

Assumptions used for valuation within Level 3 are linked to changes in the margin on loans.

NOTE 4. OTHER OPERATING INCOME

NOK MILLION	Q2 2014	Q2 2013	30.06.14	30.06.14	31.12.13
Guarantee commission	1	1	4	2	4
Commission income from SpareBank 1 Boligkreditt AS [1]	27	18	55	33	82
Net other commission income/expense	2	0	4	0	-5
Other operating income	12	7	12	7	8
Total other operating income	42	26	75	42	89

[1] The Bank receives commission on loans that are transferred to Sparebank1 Boligkreditt AS, which is calculated as the lending rate on the loans less costs in Sparebank1 Boligkreditt AS.

NOTE 5. INCOME FROM OWNERSHIP INTERESTS IN GROUP COMPANIES

For 2013, an ordinary general meeting of the subsidiary Bolig- og Næringskreditt AS decided to pay a group contribution of NOK 167 million before tax.

NOTE 6. IMPAIRMENT LOSSES AND WRITE-DOWNS ON LOANS AND GUARANTEES

The various elements included in impairment losses and write-downs on loans are set out in Note 1 to the annual Report. Loans past due by more than three months are defined as loans not serviced under the loan agreement for three months or more. However, as a first mortgage lender, the Group can gain access to revenue, either through the courts or by some voluntary solution. Impairment losses and write-downs described here apply to loans carried at amortised cost and changes in value and gains/losses on the sale of repossessed properties in the current period.

Loans transferred to SpareBank 1 Boligkreditt	8 813	6 632	8 323
Total loans, managed portfolio	20 330	20 854	21 812

NOTE 8. TRANSFER OF LOANS TO SPAREBANK 1 NÆRINGSKREDITT

SpareBank 1 Næringskreditt AS was established in 2009 and is licensed by the Financial Supervisory Authority of Norway to operate as a credit institution. The company's bonds have an Aa1 rating from Moody's. The company is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Boligkreditt AS in Stavanger. BN Bank owns no shares in SpareBank 1 Næringskreditt at 30 June 2014. The purpose of the company is to secure for the consortium banks a source of stable, long-term financing of commercial real estate at competitive rates. SpareBank 1 Næringskreditt procures loans with mortgages on commercial properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to the company and, as part of the Bank's funding strategy, loans have been transferred from BNkreditt. Loans transferred to Sparebank 1 Næringskreditt AS are secured by mortgages on commercial properties for up to 60 per cent of the appraised value. Transferred loans are legally owned by Sparebank 1 Næringskreditt AS and, apart from the management right and the right to take over fully or partially written-down loans, BNkreditt has no right to the use of these loans. At the end of June 2014, the book value of transferred loans was NOK 12.8 billion. BNkreditt is responsible for managing the transferred loans and BNkreditt receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

BN Bank has pledged guarantees for the transferred loan commitments where they exceed 25 per cent of SpareBank 1 Næringskreditt's capital base. As at 30 June 2014, the aforementioned guarantees amount to NOK 0 million.

The loans transferred to SpareBank 1 Næringskreditt AS are very well secured and there is only a very slight probability of loss. BNkreditt has a remaining involvement in the form of a possible settlement against the commission it receives. Should there arise accounting credit losses or a fall in margin relating to one or more transferred loans, SpareBank 1 Næringskreditt AS can reduce the commission BNkreditt receives with the loss. A reduction in commission for BNkreditt is limited to the total commission for the calendar year and if SpareBank 1 Næringskreditt AS subsequently has its loss covered, the commission will be paid back to BNkreditt. The maximum amount which BNkreditt can be required to pay back has been calculated, but is not material and is thus not recorded on the balance sheet. The fair value of the expected reduction in commission has been calculated and deemed immaterial. A possible settlement against the commission has therefore had no effect on the balance sheet or the result during the period.

The consideration received for loans transferred from BNkreditt to SpareBank 1 Næringskreditt AS is equal to the nominal value of transferred loans and is measured as virtually concurrent with the fair value of the loans as at the end of the second quarter of 2014 and 2013.

Guarantee provided by BN Bank to BNkreditt

In order to attend to the interests of existing bond holders in BNkreditt, in connection with the transfer of loans to Sparebank 1 Næringskreditt BN Bank has guaranteed that BNkreditt will have a capital adequacy ratio of at least 20 per cent at all times. Should the capital adequacy ratio fall below 20 per cent, the Parent Bank will cede precedence with respect to its accounts receivable with BNkreditt and/or provide a guarantee. As at 30 June 2014, BNkreditt's capital adequacy ratio was 21.29 per cent. The amount the Parent Bank is ceding precedence for stood at NOK 0 million as at 30 June 2014.

NOTE 9. TRANSFER OF LOANS TO SPAREBANK 1 BOLIGKREDITT

SpareBank 1 Boligkreditt is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Næringskreditt AS in Stavanger. BN Bank has a stake of 4.78% as at 30 June 2014. The purpose of the company is to secure for the banks within the consortium a source of stable, long-term financing of residential mortgage loans at competitive rates. The company's bonds have ratings of Aaa and AAA from Moody's and Fitch respectively. SpareBank 1 Boligkreditt procures loans with mortgages on residential properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to SpareBank 1 Boligkreditt and, as part of the Bank's funding strategy, loans have been transferred to the company. Loans transferred to SpareBank 1 Boligkreditt AS are secured by mortgages on residential properties for up to 75 per cent of the appraised value. Transferred loans are legally owned by SpareBank 1 Boligkreditt AS and, apart from the management right and the right to take over fully or partially written-down loans, BN Bank has no right to the use of these loans. At the end of June 2014, the book value of transferred loans was NOK 8.8 billion. BN Bank is responsible for managing the transferred loans and receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

BN Bank has, in conjunction with the other owners of SpareBank 1 Boligkreditt AS, entered into agreements to establish a liquidity facility for SpareBank 1 Boligkreditt AS. This means that the owner banks have undertaken to purchase covered bonds in the case that SpareBank 1 Boligkreditt AS is unable to refinance its business in the market. The purchase is limited to the total value of the maturities in the company at any time in the next twelve months. Previous purchases under this agreement are deducted from future purchase obligations. Each owner is principally liable for his share of the refinancing need, alternatively for the double of what the primary liability may be in accordance with the same agreement. The bonds can be deposited in Norges Bank and thus give rise to no material increase in risk for BN Bank. According to its own internal policy, SpareBank 1 Boligkreditt AS maintains its liquidity for the next 12 months' maturities. This is deducted when the banks' liability is measured. It is therefore only in the event that SpareBank 1 Boligkreditt AS no longer has sufficient liquidity for the next 12 months' maturities that BN Bank will report any commitment here with regard to capital adequacy or major commitments.

BN Bank has also entered into a shareholder agreement with the shareholders of SpareBank 1 Boligkreditt AS. Among other things, this means that BN Bank will contribute to SpareBank 1 Boligkreditt AS having a tier 1 capital ratio of at least 9.0 per cent, and if required inject tier 1 capital if it falls to a lower level. SpareBank 1 Boligkreditt AS has internal guidelines stipulating a tier 1 capital ratio of at least 10.0 per cent. On the basis of a concrete assessment, BN Bank has chosen not to hold capital for this obligation because the risk of BN Bank being compelled to contribute is considered very slight. Reference is also made in that connection to the fact that there are a number of alternative courses of action which may be relevant should such a situation arise.

The loans transferred to SpareBank 1 Boligkreditt AS are very well secured and there is only a very slight probability of loss. BN Bank has a remaining involvement in the form of a possible settlement against the commission it receives. Should there arise accounting credit losses or a fall in margin relating to one or more transferred loans, SpareBank 1 Boligkreditt AS can reduce the commission BN Bank receives with the loss. A reduction in commission for BN Bank is limited to the total commission for the calendar year and if SpareBank 1 Boligkreditt AS subsequently has its loss covered, the commission will be paid back to BN Bank. The maximum amount which BN Bank can be required to pay back has been calculated, but is not material and is thus not recorded on the balance sheet. The fair value of the expected reduction in commission has been calculated and deemed immaterial. A possible settlement against the commission has therefore had no effect on the balance sheet or the result during the period.

The consideration received for loans transferred from BN Bank to SpareBank 1 Boligkreditt AS is equal to the nominal value of transferred loans and is measured as virtually concurrent with the fair value of the loans as at the end of the second quarter of 2014 and 2013.

NOTE 10. BORROWING

The balance sheet includes borrowing at a fixed interest rate included in hedging carried at amortised cost, while other borrowing at a fixed interest rate is selected for carrying at fair value. Borrowing at a variable interest rate is carried at amortised cost.

Debt securities in issue

The Parent Bank has issued bonds and certificates with a nominal value of NOK 2,350 million as at 30 June 2014, either as new issues or the expansion of existing open loans.

NOK MILLION	CERTIFICATES	BONDS	TOTAL
Net debt (nominal) 1 January 2014	1 350	11 540	12 890

Total	**819**	**1 023**	**465**	**530**	**824**	**969**

In connection with the calculation of fair value of certificates and bonds at amortised cost, we have used estimates of market prices from brokers. Treasury bills are recognised at the most recent bid price. Financial derivatives are carried in their entirety at fair value, and consequently no difference will be presented in the balance sheet between fair value and recognised value. In the comparative figures from 2013, the fair value of bonds and certificates at amortised cost has partly been calculated using a model where the cash flow of the security is discounted by the NIBOR/Swap interest rate plus a credit margin. The credit margin is again based on estimates from brokers.

Subdivision of fair value measurement for financial instruments carried at amortised cost

Financial instruments measured at fair value at the end of the reporting period are subdivided into the following levels of fair value measurement:

- Level 1: Quoted price in an active market for an identical asset or liability
- Level 2: Measurement is performed using a valuation technique and discounting of expected future cash flows. The risk-free interest rate is read from the market through the interest rate on loans between especially creditworthy banks (interest-rate swap curve). The premium for credit risk is determined on the basis of other market players' ongoing assessments of the Bank's creditworthiness.
- Level 3: Measurement based on factors not taken from observable markets nor which have observable assumptions as input to the valuation.

The Parent Bank's assets and liabilities measured at amortised cost as at 30 June 2014

NOK MILLION	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
Subordinated loans	0	453	0	453

NOTE 12. RIGHT OF OFF-SET, FINANCIAL DERIVATIVES

With effect from 2013, the BN Bank Group must provide information on the financial instruments for which it has entered into off-set agreements in accordance with IFRS 7.13 A-F. The company has no items which are recognised net in the balance sheet in accordance with IFRS 7.13.C a-c.

The Group enters into standardised and chiefly bilateral ISDA contracts for derivatives transactions with financial institutions, which give the parties the right of off-set in the event of default. The Group has also entered into additional collateral-posting agreements (CSAs) with some of the counterparties.

NOTE 13. CAPITAL ADEQUACY

Process for assessing capital adequacy requirement

During the second quarter of 2014, the BN Bank obtained approval to use internal measurement methods (Internal Rating Based Approach - Advanced) for measuring credit risk for corporate engagement. The use of IRB imposes comprehensive requirements on the Bank's organisation, competence, risk models and risk management systems. Approval of the Retail Market is under consideration, but has been put on hold due to new requirements concerning residential mortgage loans which were presented by the Financial Supervisory Authority of Norway on 1 July 2014.

[1] For more details, see Note 10.

[2] From the second quarter of 2014, BN Bank has obtained approval to use internal measurement methods for credit risk linked to corporate engagements. Historical minimum requirements for subordinated capital are reported according to the standard method.

NOTE 14. CONTINGENT LIABILITIES

Sale of structured products

BN Bank was sued in a group action over structured savings products in 2008. The Supreme Court ruled in February 2010 that group litigation is not appropriate for assessing this type of product.

Three of the Bank's customers then sued the Bank individually in the District Court, but the Court ruled against them on 8 July 2011. Three of the Bank's customers then sued the Bank individually in the District Court, but the Court ruled against them on 8 July 2011. The ruling was appealed to the Borgarting Court of Appeal, but the case was settled in court with the same result for the Bank as after the District Court's decision, whereby the Bank was obliged to pay its own costs.

BN Bank has also provided loans to finance Artemis structured products. BN Bank was sued by six customers, but the lawsuits were settled in court without the Bank having paid any compensation to the applicants.

In March 2013, the Norwegian Supreme Court passed judgment in the so-called "Røeggen case". The Norwegian Financial Services Complaints Board has in that connection requested all the banks involved, including BN Bank, to re-assess the complaints against them that have been brought before the Complaints Board, in the light of the judgment. Following a further review, BN Bank still takes the view that the cases the Bank is involved in are not comparable with the "Røeggen case". Statements from the Financial Appeal Board during the first quarter of 2014 have supported the Bank's view. All complaints concerning the products have been considered by the board and none of the complaints were upheld. This applies to complaints where the Bank has been a lender and where the Bank has been a lender and an issuer. As a result, the Bank has made no provision related to structured products in 2014.

NOTE 15. CONTINGENT OUTCOMES, EVENTS AFTER THE REPORTING PERIOD

Apart from the matters mentioned in Note 14 above, there are no assets or liabilities to which contingent outcomes are attached and where those outcomes could have a significant impact on the Group's financial position and results.

There have been no significant events after the reporting period.

To the Board of Directors of BN Bank ASA

Report on Review of Interim Financial Information

Introduction
We have reviewed the accompanying interim financial information of BN Bank ASA, which comprise the financial statements of the group and the financial statements of the parent company. The financial statements of the group and the financial statements of the parent company comprise balance sheet as of 30 June 2014 and the related statements of income, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34: “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review
We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

A review is substantially less in scope than an audit conducted in accordance with standards on auditing adopted by Den Norske Revisorforening, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion
Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 “Interim Financial Reporting”.

Trondheim, 5. August 2014
KPMG AS

Sverre Einersen
State Authorised Public Accountant

Note: This translation from Norwegian has been prepared for information purposes only.

Statement in accordance with Section 5-6 of the Securities Trading Act

We hereby confirm that we believe that the company and consolidated interim accounts for the period 1 January to 30 June 2014 have been prepared in accordance with IAS34 Interim Financial Reporting and that the information in the interim report presents a true and fair view of the assets, liabilities, financial position and general results of the company and the group.

We believe that the interim report presents a true and fair overview of important events during the financial period and their impact on the interim financial statements, as well as a description of the key risk and uncertainty factors that the organisation will face during the next financial period.
