Note 13. Transfer to SpareBank 1 Boligkreditt	
Note 14. Income statements for the last five quarters	
Report on Review of Interim Financial Information	
Statement in accordance with the Norwegian Securities Trading Act, section 5-6	

## Highlights first half-year to 30 June 2012 BN Bank

## (Figures compared with first-half 2011)

- Profit after tax of NOK 66 million (NOK 73 million)
- Profit after tax of core business totalling NOK 99 million (NOK 67 million)
- Return on equity after tax of 4.2 per cent (4.9 per cent)
- Return on equity after tax of core business 6.3 per cent (4.5 per cent)
- Tier 1 capital ratio of 12.2 per cent (11.0 per cent); core tier 1 capital ratio of 10.3 per cent (9.6 per cent)
- 10.3 per cent growth in business lending and 3.8 per cent growth in retail lending in the past 12 months
- SpareBank 1 SMN took over NOK 2.3 billion of the NOK 3.1 billion loan portfolio in Ålesund as of 1 February 2012.
  BN Bank is now providing guarantees for 60% of the credit risk for this portfolio (referred to as the Guarantee Portfolio).
  BN Bank's maximum loss is thus down to NOK 443 million, which at the end of first-half 2012 was 1.4 per cent of the Group's total lending.

Notes

1) Profit after tax as a percentage of average equity

2) Total net interest margin to date this year in relation to average total assets (ATA)

3) Total operating expense as a percentage of total operating income

4) Customer deposits as a percentage of lending to customers

5) Average total assets (ATA) are calculated as an average of quarterly total assets and as at

1 January and 31 December

6) Net loss as a percentage of average gross lending to date this year

7) The figures disclosed include the Guarantee Portfolio

## Report of the Directors

## Summary of results for the first half-year to 30 June 2012

All figures for the first half-year to 30 June 2012 are compared with the figures for the first half-year to 30 June 2011:

- Growth in lending of NOK 3 074 million in the past 12 months (NOK 3 335 million)
- Profit after tax of NOK 66 million (NOK 73 million).
- Profit after tax of core business totalling NOK 99 million (NOK 67 million).
- Return on equity after tax of 4.2 per cent (4.9 per cent).
- Return on equity after tax of core business 6.3 per cent (4.5 per cent).
- Impairment losses on loans and advances of NOK 23 million (NOK 28 million)
- Tier 1 capital ratio of 12.2 per cent (11.0 per cent)
- Core tier 1 capital ratio of 10.3 per cent (9.6 per cent)

## Highlights of First-Half 2012

The comparative figures in parentheses below are the first-half figures as at 30 June 2011.

For the first half of 2012 the BN Bank Group posted a profit after tax of NOK 66 million (NOK 73 million). The core business (retail and business banking) saw an increase in post-tax profit of NOK 32 million, while a negative trend in the Bank's former portfolio in Ålesund pulled profits down by NOK 39 million.

Total income for first-half 2012 was NOK 243 million (NOK 245 million). An increase in the volume of lending and positive changes in the value of financial instruments made a positive contribution to income, but this was pulled down by a decrease in income from the Guarantee Portfolio.

Operating expenses for the first half-year 2012 were NOK 129 million (NOK 135 million). The decrease is attributable to a reduction in marketing costs and sales costs relating to the property Munkegata 21 that arose in the first half of 2011. The cost-income ratio for first-half 2012 was 53 per cent (55 per cent).

Net impairment losses on loans and guarantees in first-half 2012 totalled NOK 23 million (NOK 28 million), including a decrease in collective write-downs of NOK 20 million (increase of NOK 6 million).

Non-performing loans as at 30 June 2012 were 1.83 per cent of gross lending<sup>1</sup> (0.44 per cent).

On a 12-month basis, growth in lending was 7.0 per cent and growth in deposits 1.0 per cent at the end of first-half 2012. Business lending has increased by NOK 3.0 billion, while the volume of retail lending has increased by NOK 0.5 billion in the past 12 months. Loans to SpareBank 1 SMN as a result of the transfer of the Ålesund portfolio have fallen by NOK 0.4 billion in the past 12 months.

In the first half of 2012, BN Bank issued ordinary senior bonds for a total of NOK 6.0 billion in the Norwegian bonds market. The Bank also transferred NOK 1.0 billion and NOK 2.7 billion to SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt respectively.

BN Bank's capital adequacy ratio, tier 1 capital ratio and core tier 1 capital ratio are as follows:

FIGURES IN %	Q2 2012	Q1 2012
Capital adequacy ratio	15.1	14.2
Tier 1 capital ratio	12.2	11.5
Core tier 1 capital ratio	10.3	9.7

<sup>1</sup> Gross lending comprises lending in the Group and BN Bank's loan portfolio in Ålesund.

BN Bank's total assets as at 30 June 2012 were NOK 38.6 billion (NOK 40.2 billion). See Note 9 for further details of the capital adequacy ratio.

On 26 January 2012, Oslo District Court gave judgment in the case in which the Icelandic bank Glitnir banki hf, has sued BN Bank ASA for what Glitnir claims was an unlawful offset of about NOK 240 million. According to the judgment, BN Bank ASA was ordered to pay Glitnir NOK 213 million plus interest. The Court found that about NOK 27 million was lawfully offset. In BN Bank's view, the Court has made an error on a key point relating to the largest single item that the offset was made against, but BN Bank has otherwise won on the other, important points. BN Bank has accordingly appealed the judgment to the Borgarting Court of Appeal. As BN Bank has previously reported the offset amount as lost, the judgment has only a limited negative accounting effect for the Bank.

BN Bank has previously entered into an agreement with SpareBank1 SMN for the latter to take over the Bank's Ålesund portfolio. The parties revised the agreement on 1 February 2012, according to which SpareBank1 SMN took over NOK 2.3 billion of the portfolio valued at NOK 3.1 billion. BN Bank is now providing guarantees for 60 per cent of the credit risk for the remaining portfolio (referred to as the Guarantee Portfolio). This has reduced BN Bank's theoretical maximum exposure to NOK 443 million, which was 1.4 per cent of the Bank's total lending at 30 June 2012.

### **Economic developments**

Bank BN Bank presents its consolidated and separate interim financial statements in compliance with International Financial Reporting Standards (IFRS). See Note 1 for more information.

The second-quarter interim financial statements give a true and fair view of the BN Bank Group's assets and liabilities, financial position and performance. The interim financial statements are based on the assumption that the entity is a going concern.

## Profit performance for Q2 2012

The comparative figures in parentheses below are the first-quarter figures as at 31 March 2012.

For the second quarter of 2012, profit after tax was NOK 29 million (NOK 37 million). This produced a return on equity of 3.7 per cent. The decrease in profit is attributable to a decrease in changes in the value of financial instruments and an increase in impairment losses on loans.

### Income

Total income for the second quarter of 2012 was NOK 116 million (NOK 127 million).

NOKm	Q2 2012	Q1 2012	CHANGE
Total income	116	127	-11
Margins and volumes on lending/deposits			9
Fees and commission, SpareBank 1 SMN			-5
Share dividend			-2
Return on unrestricted funds (equity)			-2
Value changes, financial instruments			-15
Other			4

An increase in lending and deposit margins and an increase in the volume of lending brought about an increase in total income, although a decrease in changes in the value of financial instruments pulled income down overall.

In second-quarter 2012, changes in the value of financial instruments were NOK 0 million, which is a negative change of NOK 15 million compared with first-quarter 2012. See Note 2 for more information about value changes.

## Operating expense

Second-quarter operating expense was NOK 62 million (NOK 67 million).

NOKm	Q2 2012	Q1 2012	CHANGE
Operating expense	62	67	-5
Wages and pension costs			-3
Marketing			-1
Consultancy assistance			-1

The decrease in other operating expense in second-quarter 2012 is largely owing to a reduction in wages and salaries.

The Group's cost-income ratio for second-quarter 2012 was 53 per cent (53 per cent).

## Impairment losses and non-performing loans

Impairment losses on loans for the second quarter of 2012 totalled NOK 14 million (NOK 9 million).

Impairment losses on loans in second-quarter 2012 comprised income recognition of NOK 1 million in retail loans, expense recognition of NOK 6 million in corporate loans, and expense recognition of NOK 9 million in the Guarantee Portfolio<sup>2</sup>.

Collective write-downs were down by NOK 1 million in the second quarter.

Individual and collective impairment losses on loans in second-quarter 2012 were as follows:

NOKm	INDIVIDUAL	COLLECTIVE
Corporate	6	0
Retail	-1	0
Guarantee Portfolio	10	-1

Non-performing and doubtful loans, less individual write-downs, totalled NOK 810 million (NOK 640 million) at the end of second-quarter 2012, which is 2.59 per cent (1.84 per cent) of gross lending. This includes non-performing and doubtful loans in the Guarantee Portfolio. See Note 6 for more information.

Loan loss provisions at the end of the second quarter of 2012 totalled NOK 150 million, of which individual write-downs accounted for NOK 84 million and collective write-downs NOK 66 million. Total loan loss provisions at the end of the second quarter were as follows:

	LOAN LOSS PROVISIONS (NOKm)	% OF GROSS LENDING GROUP
Corporate	135	0.43
Retail	14	0.04
Divested portfolio	1	0.00

<sup>2</sup> BN Bank has provided guarantees for losses in this portfolio.

In addition, provision of NOK 62 million has been made as a financial loss guarantee relating to the Guarantee Portfolio.

## Total assets

BN Bank's total assets were NOK 38.6 billion at the end of the second quarter of 2012, which is NOK 1.6 billion down on the past year. The change is mostly attributable to a transfer of loans to SpareBank 1 Næringskreditt and SpareBank 1 Boligkreditt.

## Growth in lending and deposits

Gross lending<sup>3</sup> has increased by NOK 3.1 billion, or 7.0 per cent, in the past 12 months. Gross lending totalled NOK 47.1 billion at the end of the second quarter of 2012.

NOKbn	Q2 2012	Q1 2012	Q4 2011	Q3 2011
Gross lending	47.1	45.9	45.7	44.6
Change in the quarter	1.2	0.2	1.1	0.5

Gross lending had the following segmental exposure as at 30 June 2012:

NOKbn	Q2 2012	Q2 2011
Retail	13.9	13.4
Corporate	32.0	29.0
Loans transferred to SpareBank 1 SMN	1.2	1.6

Growth in corporate lending in the past 12 months was NOK 3.0 billion, or 10 per cent, whereas growth in retail lending in the past 12 months was NOK 0.5 billion, or 4 per cent.

Gross lending in the BN Bank Group<sup>4</sup> as at 30 June 2012 had the following sectoral exposure:

FIGURES IN %	Q2 2012	Q2 2011
Real estate operations	59	50
Retail market	26	33
Financial industry	8	5
Other	7	12

At the end of second-quarter 2012 a loan portfolio of NOK 9.3 billion had been transferred to SpareBank 1 Næringskreditt and a loan portfolio of NOK 6.6 billion to SpareBank 1 Boligkreditt.

Customer deposits have increased by NOK 149 million in the past 12 months. Total deposits stood at NOK 15.8 billion at the end of the second quarter of 2012.

The deposit-to-loan ratio at the end of the second quarter of 2012 was 50.5 per cent, which is 2.8 percentage points higher than as at 30 June 2011.

<sup>3</sup> Gross lending is the sum total of corporate and retail lending in BN Bank, SpareBank 1 Næringskreditt, SpareBank 1 Boligkreditt and loans transferred to SpareBank 1 SMN.

<sup>4</sup> Gross lending for the Group is the sum total of corporate and retail lending in BN Bank and loans transferred to SpareBank 1 SMN.

## Funding and liquidity

In the second quarter, BN Bank has issued certificates and bonds for a total of NOK 3.7 billion.

The Bank's liquidity portfolio was NOK 6.0 billion at the end of second-quarter 2012.

BN Bank's Board of Directors have resolved that the Bank shall at all times have sufficient liquid funds to manage without accessing any new external funding for a period of 12 months. At the end of the second quarter of 2012, this target had been met by a good margin.

### **Subsidiaries**

The BN Bank Group comprises the bank BN Bank ASA and the credit institutions Bolig- og Næringskreditt AS (BNkreditt) and BN Boligkreditt AS (BN Boligkreditt). The Group also includes the real estate company Collection Eiendom AS.

BNkreditt and BN Boligkreditt present separate financial statements in compliance with International Reporting Standards (IFRS). Collection Eiendom presents its financial statements in compliance with NGAAP. See Note 1 for more information.

#### Bolig- og Næringskreditt AS

BNkreditt provides low-risk mortgage loans on commercial real estate. At the end of the second quarter of 2012 the company had a loan portfolio totalling NOK 18.5 billion, compared with NOK 16.1 billion as at 30 June 2011. NOK 9.3 billion in loans had been transferred to SpareBank1 Næringskreditt as at 30 June 2012.

BNkreditt posted a profit after tax of NOK 41 million for the first half of 2012, compared with a post-tax profit of NOK 44 million for the same period last year. The decrease in profit is primarily attributable to a decrease in net income from interest and credit commissions.

Impairment losses on loans and advances totalled NOK 6 million for first-half 2012, compared with NOK 24 million for same period in 2011. Collective write-downs were down by NOK 1 million in first-half 2012 and totalled NOK 41 million, which is 0.22 per cent of gross lending as at 30 June 2012.

BNkreditt had NOK 4.1 billion in bond debt outstanding as at 30 June 2012, compared with NOK 4.3 billion as at 30 June 2011.

BN Bank has provided guarantees that BNkreditt will have a minimum capital adequacy ratio and junior financing of 20 per cent. BNkreditt's capital adequacy ratio and tier 1 capital ratio were, respectively, 15.3 per cent and 13.0 per cent as at 30 June 2012. The amount BN Bank is ceding precedence for in relation to guarantees was NOK 937 million as at 30 June 2012.

#### **BN Boligkreditt AS**

BN Boligkreditt is BN Bank's credit institution for issuance of covered bonds. At the end of the first half of 2012 the company had a residential mortgage portfolio totalling NOK 224 million, which is NOK 2.0 billion less than as at 30 June 2011.

The company posted a profit after tax of NOK 6 million for first-half 2012, compared with NOK 11 million for the same period of 2011. The decrease in profit is attributable to a fall in the volume of lending and a decrease in changes in the value of financial instruments.

The company's capital adequacy ratio was 142.7 per cent and the tier 1 capital ratio was 112.1 per cent as at 30 June 2011.

## **Collection Eiendom AS**

Collection Eiendom AS was established in 2010 for the purpose of owning and managing real estate. Collection Eiendom posted a zero result after tax as at 30 June 2012.

## **Outlook for BN Bank**

BN Bank ASA is well capitalised and the Bank's funding is sound. The Board of Directors are focusing on healthy growth in the Bank's core areas in accordance with the adopted business strategy.

Turbulence in the financial markets is affecting the supply and cost of funding. A continuing rise in the cost of funding may give rise to an increase in lending interest rates and lower growth going forward.

Low costs will be essential to enable the Bank to realise its strategy, and for that reason the Bank will work hard to reduce the overall cost picture in 2012 compared with 2011.

The Board expect to see continuing positive development within BN bank's core business.

Trondheim, 7 August 2012 The Board of Directors

## NOTE 1. ACCOUNTING POLICIES

The first-half interim consolidated financial statements for the period 1 January to 30 June 2012 have been prepared in compliance with IFRS, including IAS 34 Interim Financial Reporting. A description of the accounting policies on which the interim consolidated financial statements are based is provided in the Annual Report for 2011.

### NOTE 2. CHANGE IN VALUE OF FINANCIAL INSTRUMENTS CARRIED AT FAIR VALUE, GAINS AND LOSSES

Total change in value of financial instruments carried at fair value	-11	42	64	9	-128
Realised exchange gains/losses (-) bonds and certificates carried at amortised cost	-6	-5	-9	-8	-10
Exchange gains/losses on borrowings and loans carried at amortised cost <sup>2</sup>	17	-27	-40	3	118
Total change in value of financial instruments carried at fair value, gains and losses	0	10	15	4	-20

<sup>1</sup> In connection with the sale and/or issue of the structured products, BN Bank has hedged exposure in the form of equity options, equity-linked options and interest rate swap agreements. The earlier turbulence in the financial markets caused the loss of some contractual counterparties, and it was not possible at the time to replace these hedging transactions. BN Bank is therefore partially exposed to the market development of a limited number of products. Changes in exposure are recognised in profit and loss immediately and as at 30 June 2012 there was no profit-and-loss effect, compared with recognised expense of NOK 2 million for the same period of 2011. NOK 8 million was recognised as expense for full-year 2011.

<sup>2</sup> Exchange gains/losses on borrowings and loans carried at amortised cost are chiefly attributable to exchange gain/loss effects which arise when borrowing and lending in foreign currencies are translated at the current exchange rate. Forward exchange contracts and combined interest rate and currency derivatives are carried at fair value with changes in value carried through profit or loss. The net foreign exchange effect for the Group was recognised income of NOK 3 million for the period to 30 June 2012, compared with no P&L effect for the period to 30 June 2011. The equivalent figure for full-year 2011 was NOK 1 million recognised as income. Exposure to exchange rate fluctuations is low.

<sup>3</sup> Changes in the value of financial investments selected for fair value carrying gave rise to recognised income of NOK 13 million for the period to 30 June 2012, compared with recognised income of NOK 6 million for the same period of 2011. NOK 1 million was recognised as expense for full-year 2011. Turbulence in the financial markets has caused big fluctuations in the value of these investments.

<sup>4</sup> The net effect of interest rate derivatives obliged to be carried at fair value and changes in the value of financial instruments selected for fair value carrying was recognised income of NOK 8 million for the period to 30 June 2012, compared with recognised income of NOK 8 million for the same period of 2011. NOK 1 million was recognised as expense for full-year 2011.

<sup>5</sup> From 2010, BN Bank has used fair value hedges for new fixed-rate borrowings and related hedge instruments. The borrowings are hedged 1:1 through external contracts where the principal, interest stream, term and hedging transaction match. It is the interest rate risk that is hedged and the hedging transactions entered into are documented. With fair value hedges, the hedge instrument is accounted for at fair value, and the hedge object is accounted for at fair value for the hedged risk. Changes in these values from the opening balance sheet are carried in profit or loss. The credit risk is not hedged and therefore does not affect the valuations. The value of the hedging instruments as at 30 June 2012 was positive by NOK 119 million.

<sup>6</sup> Realised exchange gains/losses on bonds, certificates and borrowings carried at amortised cost gave rise to recognised expense of NOK 9 million for the period to 30 June 2012 compared with recognised expense of NOK 8 million for the same period of 2011. NOK 10 million was recognised as expense for full-year 2011.

## NOTE 6. IMPAIRMENT LOSSES AND WRITE-DOWNS ON LOANS CARRIED AT AMORTISED COST AND GUARANTEES

The various elements included in impairment losses & write-downs on loans are set out in Note 1, 2011 Annual Report. Loans past due more than 3 months are defined as loans not serviced under the loan agreement for 3 months or more. As a first mortgage lender the Group can access revenue either through the courts or by some voluntary solution. Impairment losses & write-downs described here apply to loans carried at amortised cost and changes in value and gains/losses on the sale of repossessed properties in the current period.

<sup>1</sup> BN Bank has previously entered into an agreement with SpareBank1 SMN for the latter to take over the Ålesund portfolio. The parties revised the agreement on 1 February 2012 according to which SpareBank1 SMN took over NOK 2.3 billion of the portfolio valued at NOK 3.1 billion. BN Bank now provides guarantees for 60% of the credit risk for this portfolio (referred to as the Guarantee Portfolio). The Bank's maximum exposure is thus down to NOK 443 million, which at the end of the second quarter of 2012 was 1.4% of the Bank's total lending. The total provision for losses in the Guarantee Portfolio was NOK 62 million at 30 June 2012. BN Bank will provide guarantees for losses in the Guarantee Portfolio for a period of 3-5 years from the inception of the original agreement. The loss provision is classified under Accrued expenses and deferred income.

<sup>1</sup> With regard to disclosures in the notes concerning loans past due (non-performing loans), other loans with individual write-downs, and loans past due by sector and as a percentage of loans, the figures stated include BN Bank's operations in Ålesund, which are otherwise treated as divested operations, and the Guarantee Portfolio vis-a-vis SpareBank 1 SMN.

<sup>2</sup> Loans past due more than 3 months as a percentage of loans are calculated on the basis of loans in the remaining entity and the Guarantee Portfolio.

## NOTE 7. BORROWING (FUNDING)

Fixed-rate borrowings that are part of index linking are carried in the consolidated balance sheet at amortised cost, wihile other fixed-rate borrowings are selected for fair value carrying. Floating-rate borrowings are carried at amortised cost.

#### Debt securities in issue

The BN Bank Group had issued bonds and certificates with a face value of NOK 6 043 million as at 30 June 2012, either as new issues or increases in existing tap issues.

## NOTE 8. RESULTS OF DIVESTED OPERATION

The banking operation in Ålesund, which chiefly comprises business lending, became organisationally subordinate to SpareBank 1 SMN from Q4 2009. As of Q3 2009 inclusive the Ålesund operation has been reported as a discontinued operation under IFRS 5. The split-off from BN Bank began in Q4 2009 and was largely completed in Q2 2012. For this reason there are no P&L effects classified as discontinued operation in 2012.

P&L effects relating to the Guarantee Portfolio, which are referred to in greater detail in Note 6, are classified under remaining entity.

## NOTE 9. CAPITAL ADEQUACY

### Process for assessing the capital adequacy requirement

BN Bank has established a strategy and process for risk management and assessment of the capital adequacy requirement and how capital adequacy can be maintained. The collective term for this is ICAAP (Internal Capital Adequacy Assessment Process). Assessing the capital adequacy requirement includes assessing the size, composition and distribution of the capital base adapted to the level of risks that the Bank is or may be exposed to. The assessments are risk-based and forward-looking. Risk areas assessed in addition to the Pillar 1 risks are concentration risk in the credit portfolio, interest rate and foreign exchange risk in the bank portfolio, liquidity risk, market risk, owner's risk and reputation risk. ICAAP is not focused on a single method or a single figure, but presents a set of calculations including different time horizons, confidence levels and assumptions.

## NOTE 10. CONTINGENT LIABILITIES

### Sale of structured products

BN Bank was sued in a group action over structured savings products in 2008. The Supreme Court ruled in February 2010 that group litigation is not appropriate for assessing this type of product. The group action against BN Bank has thus been brought to a conclusion.

Three of the bank's customers then sued the Bank individually in the Oslo District Court, but the Court found in favour of BN Bank on 8 July 2011. The judgment was appealed to Borgarting Court of Appeal. The appeal will be heard in March 2013. The total loan commitment as at 30 June 2012 was NOK 4 million.

BN Bank has also provided loans to finance Artemis structured products. BN Bank is now being sued by six customers, three of whom are limited companies, with the total loan financing on these products amounting to NOK 106 million. The amounts in dispute are interest payments.

In connection with the sale and/or issue of the structured products, BN Bank has hedged exposure in the form of equity options, equity-linked options and interest rate swap agreements. The turbulence in the financial markets in 2008 caused the loss of some contractual counterparties, and it has not been possible to replace all these hedging transactions. The liquidator of one of the contractual counterparties filed a counter-claim in 2011, which BN Bank disputes. The outcome is unclear, and litigation is underway. The total claim amounts to NOK 12 million.

## Bankruptcy dividend/offset against Glitnir banki hf, Iceland

On 26 January 2012 Oslo District Court gave judgment in the case in which Glitnir banki hf. had sued BN Bank ASA for what Glitnir claims was an unlawful offset of about NOK 240 million. According to the judgment BN Bank ASA was ordered to pay Glitnir NOK 213 million plus interest. The Court found that about NOK 27 million was lawfully offset. In BN Bank's view the Court has made an error on a key point relating to the largest single item that the offset was made against, but BN Bank has otherwise won on the other, important points. BN Bank has accordingly appealed the judgment to the Borgarting Court of Appeal. As the Bank has previously reported the offset amount as lost, the judgment has only a limited negative accounting effect.

### NOTE 11. CONTINGENT OUTCOMES, EVENTS AFTER THE REPORTING PERIOD

Apart from the matters mentioned in Note 10 above, there are no assets or liabilities to which contingent outcomes are attached and where those outcomes could have a significant impact on the Group's financial position and results.

There were no significant events after the reporting period.

## NOTE 12. TRANSFER TO SPAREBANK 1 NÆRINGSKREDITT

SpareBank 1 Næringskreditt AS was established in 2009 and granted a licence by the Financial Supervisory Authority of Norway to operate as a credit institution. The company's bonds have an Aa3 rating from Moody's. The company is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Boligkreditt AS in Stavanger. The same banks own SpareBank 1 Næringskreditt as own BN Bank. The purpose of the company is to secure for the consortium banks a source of stable, long-term financing of commercial real estate at competitive rates. SpareBank 1 Næringskreditt procures loans with mortgages on commercial properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to the company and, as part of the Bank's funding strategy, loans have been transferred from BNkreditt. As at 30 June 2012, the book value of transferred loans was NOK 9.3 billion. BN Bank is responsible for managing the transferred loans and BNkreditt receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

In order to attend to the interests of existing bond holders, in connection with the transfer BN Bank guaranteed that BNkreditt will have a capital adequacy ratio of at least 20 per cent at all times. Should the capital adequacy ratio fall below 20 per cent, the Parent Bank will cede precedence with respect to its accounts receivable with BNkreditt and/ or provide a guarantee. As at 30 June 2012, BNkreditt's capital adequacy ratio was 15.3 per cent. The amount the Parent Bank is ceding precedence for stood at NOK 937 million as at 30 June 2012.

BN Bank has put up guarantees for the transferred loan commitments where they exceed 25 per cent of SpareBank 1 Næringskreditt's capital base. As at 30 June 2012, these guarantees totalled NOK 331 million.

Income Statement | Balance Sheet | Change in Equity | Cash Flow Statement | Notes

## NOTE 13. TRANSFER TO SPAREBANK 1 BOLIGKREDITT

SpareBank 1 Boligkreditt is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Næringskreditt AS in Stavanger. The purpose of the company is to secure for the banks within the consortium a source of stable, long-term financing of residential mortgage loans at competitive rates. The company's bonds have ratings of Aaa and AAA from Moody's and Fitch respectively. SpareBank 1 Boligkreditt procures loans with mortgages on residential properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to the company and, as part of the Bank's funding strategy, loans were transferred from BN Boligkreditt in 2010 and 2011. At 30 June 2012, the book value of transferred loans was NOK 6.6 billion. BN Bank is responsible for managing the transferred loans and receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

### NOTE 14. DISCLOSURES CONCERNING OPERATING SEGMENTS IN REMAINING ENTITY

Segment reporting is regularly reviewed with the management. For the remaining entity, the management have chosen to divide up the reporting segments according to the underlying business areas.

Realised exchange gains/losses (-) bonds & certificates at amortised cost <sup>6</sup>	0	-2	-2	-4	-6
Exchange gains/losses on borrowings and loans carried at amortised cost <sup>2</sup>	22	1	-15	23	123
Total change in value financial instruments carried at fair value, gains and losses	16	11	31	11	-20

<sup>1</sup> In connection with the sale and/or issue of the structured products, BN Bank has hedged exposure in the form of equity options, equity-linked options and interest rate swap agreements. The earlier turbulence in the financial markets caused the loss of some contractual counterparties, and it was not possible at the time to replace these hedging transactions. BN Bank is therefore partially exposed to the market development of a limited number of products. Changes in exposure are recognised in profit and loss immediately, and as at 30 June 2012 there was no P&L effect compared with recognised expense of NOK 2 million for the same period of 2011. NOK 8 million was recognised as expense for full-year 2011.

<sup>2</sup> Exchange gains/losses on borrowings and loans carried at amortised cost are chiefly attributable to exchange gain/loss effects which arise when borrowing and lending in foreign currencies are translated at the current exchange rate. Forward exchange contracts and combined interest rate and currency derivatives are carried at fair value with changes in value carried through profit or loss. The net foreign exchange effect for the Group was recognised income of NOK 3 million for the period to 30 June 2012, compared with no P&L effect for the period to 30 June 2011. The equivalent figure for full-year 2011 was NOK 1 million recognised as income. Exposure to exchange rate fluctuations is low.

<sup>3</sup> Change in the value of financial investments selected for fair value carrying gave rise to recognised income of NOK 13 million for the period to 30 June 2012, compared with recognised income of NOK 6 million for the same period of 2011. NOK 1 million was recognised as expense for full-year 2011. Turbulence in the financial markets has caused big fluctuations in the value of these investments.

<sup>4</sup> The net effect of interest rate derivatives obliged to be carried at fair value and changes in the value of financial instruments selected for fair value carrying was recognised income of NOK 17 million for the period to 30 June 2012, compared with recognised income of NOK 11 million for the same period of 2011. NOK 5 million was recognised as expense for full-year 2011.

<sup>5</sup> From 2010, BN Bank has used fair value hedges for new fixed-rate borrowings and related hedge instruments. The borrowings are hedged 1:1 through external contracts where the principal, interest stream, term and hedging transaction match. It is the interest rate risk that is hedged and the hedging transactions entered into are documented. With fair value hedges, the hedge instrument is accounted for at fair value, and the hedge object is accounted for at fair value for the hedged risk. Changes in these values from the opening balance sheet are carried in profit or loss. The credit risk is not hedged and therefore does not affect the valuations. The value of the hedging instruments as at 30 June 2012 was positive by NOK 89 million.

<sup>6</sup> Realised exchange gains/losses on bonds, certificates & borrowings carried at amortised cost gave rise to recognised expense of NOK 2 million for the period to 30 June 2012 compared with recognised expense of NOK 4 million for the same period of 2011. NOK 6 million was recognised as expense for full-year 2011.

## NOTE 6. IMPAIRMENT LOSSES AND WRITE-DOWNS ON LOANS CARRIED AT AMORTISED COST AND GUARANTEES

The various elements included in impairment losses and write-downs on loans are set out in Note 1 to the Annual Report for 2011. Loans past due more than 3 months are defined as loans not serviced under the loan agreement for 3 months or more. As a first mortgage lender, BN Bank can however gain access to revenue, either through the courts or by some voluntary solution. Impairment losses and write-downs on loans described in this note apply to loans carried at amortised cost and changes in value and gains/ losses on the sale of repossessed properties in the current period.

					PARENT BANK

Collective write-downs relating to Ålesund portfolio classified as held for sale	0	9	0	9	0
Total loss provisions relating to Ålesund portfolio	62	56	62	56	50

<sup>1</sup> BN Bank has previously entered into an agreement with SpareBank1 SMN for the latter to take over the Ålesund portfolio. The parties revised the agreement on 1 February 2012 according to which SpareBank1 SMN took over NOK 2.3 billion of the portfolio valued at NOK 3.1 billion. BN Bank now provides guarantees for 60% of the credit risk for this portfolio ("Guarantee Portfolio"). The Bank's maximum exposure is thus down to NOK 443 million, which at the end of second-quarter 2012 was 1.4% of the Bank's total lending. The total provision for losses in the Guarantee Portfolio was NOK 62 million at 30 June 2012. BN Bank will provide guarantees for losses in the Guarantee Portfolio for a period of 3-5 years from the inception of the original agreement. The loss provision is classified under Acrued expenses and deferred income.

Ålesund portfolio	19	2.52	22	0.64	21	0.74
Total	138	1.04	82	0.45	72	0.82

<sup>1</sup> With regard to disclosures in the notes concerning loans past due (non-performing loans), other loans with individual write-downs, and loans past due by sector and as a percentage of loans, the figures stated include BN Bank's operations in Ålesund, which are otherwise treated as divested operations, and the Guarantee Portfolio vis-a-vis SpareBank 1 SMN. <sup>2</sup> Loans past due more than 3 months as a percentage of loans is calculated on the basis of loans in the remaining entity and the Guarantee Portfolio.

## NOTE 7. BORROWING (FUNDING)

Fixed-rate borrowings that are part of index linking are carried in the balance sheet at amortised cost, wihile other fixed-rate borrowings are selected for fair value carrying. Floating-rate borrowings are carried at amortised cost.

#### Debt securities in issue

The Parent Bank had issued bonds and certificates with a face value of NOK 4 778 million as at 30 June 2012, either as new issues or increases in existing tap issues.

## NOTE 8. RESULTS OF DIVESTED OPERATION

The banking operation in Ålesund, which chiefly comprises business lending, became organisationally subordinate to SpareBank 1 SMN from Q4 2009. As of Q3 2009 inclusive the Ålesund operation has been reported as a discontinued operation under IFRS 5. The split-off from BN Bank began in Q4 2009 and was largely completed in Q2 2012. For this reason there are no P&L effects classified as discontinued operation in 2012.

P&L effects relating to the Guarantee Portfolio, which are referred to in greater detail in Note 6, are classified under remaining entity.

## NOTE 9. CAPITAL ADEQUACY

### Process for assessing the capital adequacy requirement

BN Bank has established a strategy and process for risk management and assessment of the capital adequacy requirement and how capital adequacy can be maintained. The collective term for this is ICAAP (Internal Capital Adequacy Assessment Process). Assessing the capital adequacy requirement includes assessing the size, composition and distribution of the capital base adapted to the level of risks that the Bank is or may be exposed to. The assessments are risk-based and forward-looking. Risk areas assessed in addition to the Pillar 1 risks are concentration risk in the credit portfolio, interest rate and foreign exchange risk in the bank portfolio, liquidity risk, market risk, owner's risk and reputation risk. ICAAP is not focused on a single method or a single figure, but presents a set of calculations including different time horizons, confidence levels and assumptions.

## NOTE 10. CONTINGENT LIABILITIES

### Sale of structured products

BN Bank was sued in a group action over structured savings products in 2008. The Supreme Court ruled in February 2010 that group litigation is not appropriate for assessing this type of product. The group action against BN Bank has thus been brought to a conclusion.

Three of the bank's customers then sued the Bank individually in the Oslo District Court, but the Court found in favour of BN Bank on 8 July 2011. The judgment was appealed to Borgarting Court of Appeal. The appeal will be heard in March 2013. The total loan commitment as at 30 June 2012 was NOK 4 million.

BN Bank has also provided loans to finance Artemis structured products. BN Bank is now being sued by six customers, three of whom are limited companies, with the total loan financing on these products amounting to NOK 106 million. The amounts in dispute are interest payments.

In connection with the sale and/or issue of the structured products, BN Bank has hedged exposure in the form of equity options, equity-linked options and interest rate swap agreements. The turbulence in the financial markets in 2008 caused the loss of some contractual counterparties, and it has not been possible to replace all these hedging transactions. The liquidator of one of the contractual counterparties filed a counter-claim in 2011, which BN Bank disputes. The outcome is unclear, and litigation is underway. The total claim amounts to NOK 12 million.

## Bankruptcy dividend/offset against Glitnir banki hf, Iceland

On 26 January 2012 Oslo District Court gave judgment in the case in which Glitnir banki hf. had sued BN Bank ASA for what Glitnir claims was an unlawful offset of about NOK 240 million. According to the judgment BN Bank ASA was ordered to pay Glitnir NOK 213 million plus interest. The Court found that about NOK 27 million was lawfully offset. In BN Bank's view the Court has made an error on a key point relating to the largest single item that the offset was made against, but BN Bank has otherwise won on the other, important points. BN Bank has accordingly appealed the judgment to the Borgarting Court of Appeal. As the Bank has previously reported the offset amount as lost, the judgment has only a limited negative accounting effect.

### NOTE 11. CONTINGENT OUTCOMES, EVENTS AFTER THE REPORTING PERIOD

Apart from the matters mentioned in Note 10 above, there are no assets or liabilities to which contingent outcomes are attached and where those outcomes could have a significant impact on the Group's financial position and results.

## NOTE 12. TRANSFER TO SPAREBANK 1 NÆRINGSKREDITT

SpareBank 1 Næringskreditt AS was established in 2009 and granted a licence by the Financial Supervisory Authority of Norway to operate as a credit institution. The company's bonds have an Aa3 rating from Moody's. The company is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Boligkreditt AS in Stavanger. The same banks own SpareBank 1 Næringskreditt as own BN Bank. The purpose of the company is to secure for the consortium banks a source of stable, long-term financing of commercial real estate at competitive rates. SpareBank 1 Næringskreditt procures loans with mortgages on commercial properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to the company and, as part of the Bank's funding strategy, loans have been transferred from BNkreditt. As at 30 June 2012, the book value of transferred loans was NOK 9.3 billion. BN Bank is responsible for managing the transferred loans and BNkreditt receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

In order to attend to the interests of existing bond holders, in connection with the transfer BN Bank guaranteed that BNkreditt will have a capital adequacy ratio of at least 20 per cent at all times. Should the capital adequacy ratio fall below 20 per cent, the Parent Bank will cede precedence with respect to its accounts receivable with BNkreditt and/ or provide a guarantee. As at 30 June 2012, BNkreditt's capital adequacy ratio was 15.3 per cent. The amount the Parent Bank is ceding precedence for stood at NOK 937 million as at 30 June 2012.

BN Bank has put up guarantees for the transferred loan commitments where they exceed 25 per cent of SpareBank 1 Næringskreditt's capital base. As at 30 June 2012, these guarantees totalled NOK 331 million.

## NOTE 13. TRANSFER TO SPAREBANK 1 BOLIGKREDITT

SpareBank 1 Boligkreditt is owned by the savings banks that form the SpareBank 1 consortium and is co-located with SpareBank 1 Næringskreditt AS in Stavanger. The purpose of the company is to secure for the banks within the consortium a source of stable, long-term financing of residential mortgage loans at competitive rates. The company's bonds have ratings of Aaa and AAA from Moody's and Fitch respectively. SpareBank 1 Boligkreditt procures loans with mortgages on residential properties and issues covered bonds within the regulations governing such bonds established in 2007. As part of the consortium, BN Bank may transfer loans to the company and, as part of the Bank's funding strategy, loans were transferred from BN Boligkreditt in 2010 and 2011. At 30 June 2012, the book value of transferred loans was NOK 6.6 billion. BN Bank is responsible for managing the transferred loans and receives a commission based on the net return on the loans transferred by the Bank and the costs to the company.

To the Board of Directors of BN Bank ASA

## **Report on Review of Interim Financial Information**

#### Introduction

We have reviewed the accompanying interim financial information of BN Bank ASA, which comprise the financial statements of the group and the financial statements of the parent company. The financial statements of the group and the financial statements of the parent company comprise balance sheet as of 30. June 2012 and the related statements of income, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity".

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

A review is substantially less in scope than an audit conducted in accordance with standards on auditing adopted by Den Norske Revisorforening, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

Trondheim, 7. August 2012 PricewaterhouseCoopers AS

## Statement in accordance with the Norwegian Securities Trading Act, section 5-6

We certify that, to the best of our knowledge and belief, the first-half interim financial statements for the period 1 January to 30 June 2012 for the Company and for the Group have been prepared in compliance with IAS 34 Interim Financial Reporting, and that the disclosures in the interim financial statements give a true and fair view of the assets, liabilities, financial position and performance as a whole of the Company and of the Group.

To the best of our knowledge and belief, the first-half financial statements give a true and fair view of important events during the accounting period and their effect on the interim accounts, and a description of the most significant risks and uncertainty factors facing the Company and the Group in the next accounting period.
